

Group Discussion and Application

1. Since the Church is the people of God rather than an earthly building, what is the value of building a building?
2. How do we determine if our reasons and motivations for building are right?
3. How will a permanent facility enhance the ministry of Grace Fellowship?
4. What are some ways in which the mission God has given us should dictate our building construction?
5. What are some of the specific struggles a congregation may face in the midst of a building program? How should we deal with these?
6. A building project can become a distraction from ministry. What can the church do to maintain its ministry focus and priorities in the midst of building?
7. Have you ever been part of a church during a major building project? What did you learn from that experience?
8. How can we make our building project an especially exciting time in the life of Grace Fellowship?
9. Devote time in your discussion group to praying for our building program.

Personal Reflection and Response

1. What part do you believe God would have you take in our building program?
2. Prayerfully consider what God would have you give toward our building project.

Family Homework

1. Discuss ways your family might be involved in our building program.
2. Pray for the progress of our building plans, specifically the needed approvals.

Requirements for Building

1 Chronicles 28

Seven requirements for a successful building program are identified in the planning of Solomon's Temple.

- 1 Man's _____ . [2]
- 2 God's _____ . [3-6]
- 3 Godly _____ . [6-10]
- 4 Detailed _____ . [11-19]
- 5 _____ and _____ . [10, 20f]
- 6 Willing _____ . [21]
- 7 Generous _____ . [1Chr. 29]
